CLAIM OF THE PLAINTIFF(S)

PART 1: STATEMENT OF FACTS

THE REPRESENTATIVE PLAINTIFF

1. The plaintiff, Damon Green, is a businessman resident in Vancouver, British Columbia and a retail purchaser of a refrigerator during the proposed Class Period (as defined below).

THE CLASS AND THE CLASS PERIOD

2. This action is brought on behalf of members of a class (the "Class Members") consisting of the plaintiff and all persons resident in British Columbia who, during the period commencing from at least January 1, 2004, through December 31, 2008 (the "Class Period"), purchased hermetically sealed cooling compressors of less than one horsepower and products containing hermetically sealed cooling compressors of less than one horsepower ("Cooling Compressors") manufactured by the defendants or such other class definition or class period as the Court may ultimately decide on the motion for certification. Cooling Compressors do not include compressors used in air conditioners.

FACTUAL BACKGROUND

3. A cooling compressor is a device which forms the central component of a cooling, refrigeration or air conditioning apparatus. The device operates by compression and expansion of gas contained in it. Through this operation the device is able to absorb and transfer heat, thus producing a cooling effect.

4. Cooling Compressors are designed for a variety of household and commercial applications including refrigerators, ice makers, water coolers, room air conditioners, freezers, chillers, dehumidifiers and vending machines.

5. Most cooling compressors have hermetic motor assemblies. The hermetic seal makes access to the motor assembly difficult. As a result, the common response to damage to a hermetic cooling compressor is replacement rather than repair of the unit.

6. In 2008, the North American market for Cooling Compressors consisted of approximately 39,720,000 units sold with a total value of approximately \$6,570,000,000 (U.S.D.).

THE DEFENDANTS

7. Various persons and/or firms involved in the manufacturing, marketing, selling and/or distribution of Cooling Compressors to customers throughout Canada, not named as defendants, participated as co-conspirators in the alleged violations and may have performed acts and made agreements in furtherance of them. The named defendants are jointly and severally liable for the actions of, and damages allocable to, the unnamed co-conspirators.

~~39.42. The defendant Appliances Components Companies SpA is being investigated by the European Commission and DOJ in respect of pricing in the compressor market.~~

THE CONSPIRACY

~~40.43.~~ During the Class Period, senior executives and employees of the defendants and unnamed co-conspirators, acting in their capacities as agents for the defendants and unnamed co-conspirators, engaged in communications, conversations and attended meetings with each other at times and places, some of which are unknown to the Plaintiff, and as a result of the communications and meetings the defendants and unnamed co-conspirators unlawfully conspired or agreed:

- (a) to enhance unreasonably the prices of Cooling Compressors globally including Canada;
- (b) to fix, maintain, increase or control the prices of Cooling Compressors globally including Canada;
- (c) to exchange information in order to monitor and enforce adherence to the agreed upon prices for Cooling Compressors;
- (d) to allocate the market share, customers, or to set specific sales volumes of Cooling Compressors that each defendant and unnamed co-conspirator would supply in Canada and elsewhere; and
- (e) to lessen unduly competition in the production, manufacture, sale or supply of Cooling Compressors globally including Canada.

~~41.44.~~ In furtherance of the conspiracy, during the Class Period, the following acts were done by the defendants, the unnamed co-conspirators and their servants and agents:

- (a) they increased or maintained the prices of Cooling Compressors globally including Canada;

- (b) they allocated the volumes of sales of cooling compressors and products containing cooling compressors, and of customers and markets for Cooling Compressors among themselves;
- (c) they reduced the supply of Cooling Compressors;
- (d) they communicated secretly, in person and by telephone, to discuss and fix prices and volumes of sales of Cooling Compressors;
- (e) they exchanged information regarding the prices and volumes of sales of Cooling Compressors for the purposes of monitoring and enforcing adherence to the agreed upon prices, volumes of sales and markets;
- (f) they refrained from submitting truly competitive bids for Cooling Compressors in Canada and elsewhere;
- (g) they submitted collusive, non-competitive and rigged bids for Cooling Compressors in Canada and elsewhere;
- (h) they took active steps to, and did, conceal the unlawful conspiracy from their customers; and
- (i) they disciplined any corporation which failed to comply with the conspiracy.

42.45. The defendants and unnamed co-conspirators were motivated to conspire and their predominant purposes and predominant concerns were:

- (a) to harm the plaintiff and other Class Members by requiring them to pay an artificially induced overcharge (the "Overcharge") on prices for Cooling Compressors; and
- (b) to illegally increase their profits on the sale of Cooling Compressors.

43.46. The Canadian defendants who are subsidiaries of the foreign defendants and unnamed co-conspirators participated in and furthered the objectives of the conspiracy by knowingly modifying their competitive behaviour in accordance with instructions received from their

respective parent companies and thereby acted as agents in carrying out the conspiracy and are liable for such acts.

44.47. The acts alleged in this claim to have been done by each corporate defendant were authorized, ordered and done by each corporate defendant's officers, directors, agents, employees or representatives while engaged in the management, direction, control or transaction of its business affairs.

CAUSES OF ACTION

Civil Conspiracy

45.48. The acts particularized in paragraphs 43-47~~40-44~~ were unlawful acts directed towards the plaintiff and other Class Members, which unlawful acts the defendants knew in the circumstances would likely cause injury to the Plaintiff and other Class Members and, as such, the defendants are liable for the tort of civil conspiracy. Further, or alternatively, the predominant purpose of the acts particularized in paragraphs 40-44 was to injure the plaintiff and the other Class Members and the defendants are liable for the tort of civil conspiracy.

Breach of the Competition Act

46.49. Further, or alternatively, the acts particularized in paragraphs 43-47~~40-44~~ are in breach of s. 45 of the *Competition Act*, R.S.C. 1985, c. 19 (2nd Suppl.) ("*Competition Act*") and render the defendants liable to pay damages and costs of investigation pursuant to s. 36 of the *Competition Act*. Further, the Canadian subsidiaries of the foreign defendants are liable to the plaintiff and the other Class Members pursuant to s. 36 of the *Competition Act* for acts in contravention of s. 46(1) of the *Competition Act*.

Unlawful Interference with Economic Interests

47.50. Further, or alternatively, the acts particularized in paragraphs 43-47~~40-44~~ were unlawful acts undertaken by the defendants with the intent to injure the plaintiff and the other Class Members, and the defendants are liable for the tort of unlawful interference with economic interests.

~~48.51.~~ The plaintiff and the other Class Members suffered damages as a result of the defendants' unlawful interference with their economic interests.

~~Unjust Enrichment and, Waiver of Tort, and Constructive Trust~~

~~49.52.~~ Further, the plaintiff waives the tort and pleads that he and the other Class Members are entitled to recover under restitutionary principles.

~~50.53.~~ The defendants have each been enriched by the receipt of the ill-gotten Overcharge on the sale of cooling compressors and products containing cooling compressors. The Plaintiff and other Class Members have suffered a corresponding deprivation. There is no juristic reason for the enrichment as the defendants' receipt of the Overcharge is the result of wrongful or unlawful acts. As such, there is and can be no juridical reason justifying the defendants' retention of the Overcharge and, in particular, any contracts upon which the defendants purport to rely to receive the Overcharge are void and illegal.

~~51.~~ The defendants are constituted as constructive trustees in favour of the plaintiff and other Class Members for the Overcharge from the sale of Cooling Compressors because, among other reasons:

- ~~(a) — the defendants were unjustly enriched by receipt of the Overcharge;~~
- ~~(b) — the plaintiff and other persons similarly situated suffered a deprivation because of the Overcharge;~~
- ~~(c) — the defendants engaged in wrongful conduct and committed unlawful acts in conspiring to fix the price of Cooling Compressors and allocate market share and volume of Cooling Compressors;~~
- ~~(d) — the Overcharge was acquired in such circumstances that the defendants may not in good conscience retain it;~~
- ~~(e) — justice and good conscience require the imposition of a constructive trust;~~
- ~~(f) — the integrity of the marketplace would be undermined if the court did not impose a constructive trust; and~~

~~(g) — there are no factors that would render the imposition of a constructive trust unjust.~~

~~52.54.~~ The plaintiff pleads that equity and good conscience requires the defendants to make restitution to to hold in trust for the plaintiff and the other Class Members of the artificially induced Overcharge from the sale of Cooling Compressors ~~and to disgorge the Overcharge to the plaintiff and other Class Members.~~

DAMAGES

~~53.55.~~ The plaintiff and the other Class Members suffered the following damages:

- (a) the price of Cooling Compressors has been enhanced unreasonably by imposition of the non-competitive Overcharge; and
- (b) competition in the sale of Cooling Compressors has been unduly restrained.

~~54.56.~~ During the period covered by this claim, the plaintiff and the other Class Members purchased Cooling Compressors. By reason of the alleged violations of the *Competition Act* and the common law, the plaintiff and the other Class Members paid more for Cooling Compressors by way of the Overcharge than they would have paid in the absence of the illegal conspiracy and, as a result, they have been injured in their business and property and have suffered damages in an amount presently undetermined.

PUNITIVE DAMAGES

~~55.57.~~ The plaintiff pleads that the defendants' conduct as particularized in paragraphs ~~43-4740-~~ 44 was high-handed, outrageous, reckless, wanton, entirely without care, deliberate, callous, disgraceful, wilful, in contumelious disregard of the plaintiff's rights and the rights of each Class Member, indifferent to the consequences and, as such, renders the defendants liable to pay punitive damages.

JURISDICTION

~~56.58.~~ There is a real and substantial connection between British Columbia and the facts alleged in this proceeding and the plaintiff and other Class Members plead and rely upon the *Court Jurisdiction and Proceedings Transfer Act* RSBC 2003 Ch. 28 (the "CJPTA") in respect of these

defendants. Without limiting the foregoing, a real and substantial connection between British Columbia and the facts alleged in this proceeding exists pursuant to ss.10 (f) – (i) *CJPTA* because this proceeding:

(f) concerns restitutionary obligations that, to a substantial extent, arose in British Columbia;

(g) concerns a tort committed in British Columbia;

(h) concerns a business carried on in British Columbia; and

(i) is a claim for an injunction ordering a party to do or refrain from doing anything in British Columbia.

PART 2: RELIEF SOUGHT

57.59. The plaintiff, on its own behalf, and on behalf of the Class Members, claims against the defendants:

- (a) a declaration that the defendants conspired with each other to raise, maintain, fix and/or stabilize the price of Cooling Compressors and products containing cooling compressors during the Class Period;
- (b) an order certifying this action as a class proceeding and appointing the plaintiff as representative plaintiff;
- (c) general damages for conspiracy and unlawful interference with economic interests,
- (d) general damages for conduct that is contrary to Part VI of the *Competition Act*;
- (e) an injunction enjoining the defendants from conspiring with each other or with any unnamed co-conspirators to raise, maintain, fix and/or stabilize the price of Cooling Compressors and products containing Cooling Compressors;
- (f) a declaration that the defendants have been unjustly enriched at the expense of the plaintiff and the other Class Members by their receipt of the ill-gotten Overcharge;

- (g) a declaration that the defendants must make restitution to hold the ill-gotten Overcharge in a constructive trust for the benefit of the plaintiff and the other Class Members of all of the Overcharge;
- ~~(h)~~ an order directing the defendants to disgorge their ill-gotten Overcharge;
- ~~(+)(h)~~ punitive damages;
- ~~(+)(i)~~ costs of investigation and prosecution of this proceeding pursuant to s.36 of the *Competition Act*;
- ~~(+)(j)~~ pre-judgment and post-judgment interest pursuant to the *Court Order Interest Act*, R.S.B.C. 1996, c. 78, s. 128; and
- ~~(+)(k)~~ such further and other relief as to this Honourable Court may seem just.

PART 3: LEGAL BASIS

~~58-60.~~ The plaintiff pleads and relies upon the *Class Proceedings Act*, R.S.B.C., 1996 c. 50, the *Competition Act* and the *CJPTA*.

~~59-61.~~ Further, the plaintiff claims that the acts particularized in paragraphs PART 1:4343-PART 1:474740-44 were unlawful acts directed towards the plaintiff and the other Class Members which unlawful acts the defendants knew in the circumstances would likely cause injury to the plaintiff and the other Class Members, and the defendants are liable for the tort of civil conspiracy.

~~60-62.~~ Further, the predominant purpose of the acts particularized in paragraphs PART 1:4343-PART 1:474740-44 was to injure the plaintiff and the other Class Members and the defendants are liable for the tort of civil conspiracy.

~~61-63.~~ Further, the acts particularized in paragraphs PART 1:4343-PART 1:474740-44 were unlawful acts intended to cause the plaintiff and the other Class Members economic loss and constituted unlawful interference with the economic interests of the Class Members and render the defendants liable to pay the resulting damages.

~~62.64.~~ In the alternative, the plaintiff waives the tort and pleads that the plaintiff and the other Class Members are entitled to recover damages under restitutionary principles.

~~63.65.~~ The defendants have each been unjustly enriched by the receipt of the Overcharge on the sale of Cooling Compressors. The plaintiff and other Class Members have suffered a deprivation in the amount of the Overcharge attributable to the sale of Cooling Compressors in British Columbia.

~~64.66.~~ Since the Overcharge received by the defendants from the plaintiff and each Class Member resulted from the defendants' wrongful or unlawful acts, there is and can be no juridical reason justifying the defendants' retaining any part of the Overcharge.

~~65.~~ ~~The defendants are constituted as constructive trustees in favour of the Class Members for all of the Overcharge from the sale of Cooling Compressors, among other reasons:~~

- ~~(a) — the defendants were unjustly enriched by receipt of the Overcharge;~~
- ~~(b) — the Class Members suffered a deprivation because of the Overcharge;~~
- ~~(c) — the defendants engaged in inappropriate conduct and committed a wrongful act in conspiring to fix the price of Cooling Compressors and allocate market share and volume of Cooling Compressors;~~
- ~~(d) — the Overcharge was acquired in such circumstances that the defendants may not in good conscience retain it;~~
- ~~(e) — justice and good conscience require the imposition of a constructive trust;~~
- ~~(f) — the integrity of the marketplace would be undermined if the court did not impose a constructive trust; and~~
- ~~(g) — there are no factors that would, in respect of the Overcharge, render the imposition of a constructive trust unjust.~~

~~66.67.~~ The plaintiff pleads that equity and good conscience requires the defendants to make restitution to hold in trust for the plaintiff and the other Class Members for all of the Overcharge

from the sale of Cooling Compressors ~~and to disgorge this Overcharge to the plaintiff and the other Class Members.~~

SCHEDULE "B"

Did you purchase hermetically sealed cooling compressors of less than one horsepower ("Cooling Compressors") or products containing Cooling Compressors (including household refrigerators or freezers, but excluding air conditioners) between 2004 and 2008?

A Cooling Compressor is the component in many household and some light commercial refrigerators and freezers that provides the cooling function. Class actions have been commenced in Canada alleging price-fixing in the market for Cooling Compressors.

Settlements in the aggregate of \$4,770,000 have been reached in the class actions with the Panasonic, Embraco, and Tecumseh defendants, and with Danfoss Flensburg GmbH. The settlements will resolve the litigation. The settlements are a compromise of disputed claims and are not an admission of liability.

The settlements must be approved by the Ontario, British Columbia and Quebec courts. A joint hearing is scheduled for ●, 2015 at 10:00 a.m. PST / 1:00 EST.

At the joint hearing, the courts will be asked to approve a protocol for distribution of the settlement funds (plus interest, less approved expenses and counsel fees).

Settlement Class Members may express their views to the courts about the proposed settlements and distribution of settlement funds. See www.classaction.ca/cooling-compressors for instructions.

COOLING COMPRESSORS CLASS ACTION LITIGATION NOTICE OF SETTLEMENT APPROVAL HEARING

PLEASE READ THIS NOTICE CAREFULLY. IT MAY AFFECT YOUR LEGAL RIGHTS.

TO: All persons in Canada who between January 1, 2004 and December 31, 2008 purchased hermetically sealed cooling compressors of less than one horsepower, excluding those used in air conditioners ("Cooling Compressors") and products containing Cooling Compressors, excluding air conditioners ("Cooling Compressor Products") in Canada, except the Defendants and certain parties related to the Defendants (the "Settlement Class").

I. BACKGROUND

Class action lawsuits have been commenced in Ontario, British Columbia, and Quebec alleging that the Defendants conspired to fix prices in the market for Cooling Compressors (collectively, the "Class Actions")

Cooling Compressors means hermetically sealed cooling compressors of less than one horsepower. Cooling Compressor Products means products containing Cooling Compressors. A Cooling Compressor is the component in many household and some light commercial refrigerators and freezers that provides the cooling function. Air conditioners, as well as cooling compressors used in them, are excluded.

The following entities were named as Defendants in one or more provinces in the Class Actions: Tecumseh Products of Canada Limited, Tecumseh Products Co., Tecumseh Compressors Company, Danfoss A/S, Danfoss Inc., Danfoss Commercial Compressors Ltd., Danfoss Scroll Technologies, LLC, Danfoss Turbocor Compressors, Inc., Danfoss Compressors LLC, Appliances Components Companies S.p.A., ACC USA LLC, Panasonic Corporation, Panasonic Canada Inc., Whirlpool Canada LP, Embraco North America Inc. and Whirlpool Corporation. The Defendants are manufacturers of Cooling Compressors or Cooling Compressor Products.

II. PREVIOUS SETTLEMENT

A previous settlement was reached with Appliances Components Companies S.p.A. and ACC USA LLC (collectively "ACC"). Under the terms of the ACC settlement agreement, ACC agreed to pay \$50,000 for the benefit of the settlement class in Canada and up to \$50,000 towards the cost of notice. Settlement funds were used to fund out-of-pocket costs incurred by class counsel in the litigation. Under the terms of the settlement agreement, ACC agreed to provide cooperation to the Plaintiffs in pursuing their claims against the remaining Defendants. The Class Actions were certified against ACC for settlement purposes and the ACC settlement was approved by the Ontario, British Columbia and Quebec Courts.

III. PROPOSED SETTLEMENTS

Settlements have been reached with Danfoss Flensburg GmbH ("Danfoss Flensburg") (who at the time of settlement was not a party to the proceedings), Embraco North America, Inc. ("Embraco"), Panasonic Corporation and Panasonic Canada Inc. (collectively "Panasonic"), and Tecumseh Products of Canada Limited, Tecumseh Products Co., and Tecumseh Compressor Company

(collectively "Tecumseh"). The settlements will result in dismissal or discontinuance of proceedings against all Danfoss, Embraco, Panasonic, and Tecumseh defendants.

The Settling Defendants have agreed to pay the following amounts for the benefit of Settlement Class Members, in exchange for a full release of claims against them and their related entities:

- Danfoss Flensburg - \$300,000, plus \$100,000 towards the cost of notice and administration
- Embraco - \$1,400,000
- Panasonic - \$2,350,000
- Tecumseh - \$620,000

The settlements represent a resolution of disputed claims. The Settling Defendants do not admit, and expressly deny, any wrongdoing or liability.

A joint motion to approve the settlements and certify/authorize the Class Actions as against Danfoss Flensburg, Embraco, Panasonic and Tecumseh for settlement purposes will be heard before the Ontario, British Columbia and Quebec courts on ●, 2015 at 10:00 a.m. PST / 1:00 EST. At the joint hearing, the courts will determine whether the settlements are fair, reasonable, and in the best interests of the Settlement Class.

Settlement Class Members who do not oppose the proposed settlements need not appear at the joint hearing or take any other action at this time.

Settlement Class Members are entitled to file written submissions and/or appear and make submissions at the joint hearing. Settlement Class Members who wish to exercise either of these rights should submit written submissions to the appropriate class counsel at the addresses listed below postmarked no later than ●. The written submissions should state the nature of any comments or objections, and whether the settlement class member intends to appear at the joint hearing. Class counsel will forward all such submissions to the courts. All timely written submissions will be considered by the courts. If you do not file a written submission by the relevant deadline, you might not be entitled to participate, through oral submissions or otherwise, in the joint hearing.

IV. PROPOSED DISTRIBUTION OF THE SETTLEMENT FUNDS

At the joint hearing, the Courts will be asked to approve a protocol for distributing the aggregate settlement funds, plus accrued interest, less court approved legal fees and other expenses. A copy of the proposed distribution protocol is available at www.classaction.ca/cooling-compressors or from Class Counsel.

The protocol is designed to compensate direct and indirect purchasers of Cooling Compressors and Cooling Compressor Products in a manner that generally reflects the anticipated impact of the alleged price-fixing.

For the purposes of the distribution protocol, where the Settlement Class Member is able to provide documentation establishing the price of the compressor (whether as a standalone product or a component of another product), the compressor will be valued at that price. In all other

circumstances, the compressor will be valued at \$50 as a default unless the Settlement Class Member can otherwise demonstrate an acceptable basis for a higher value.

After the value of the compressor is established, settlement benefits will be distributed based on a percentage of that value. The applicable percentage varies between 0.5% to 3%. The applicable percentages are set out on page 9 of the distribution protocol and depend on the following factors:

1. whether the Settlement Class Members:
 - a. purchased directly from a Defendant or an entity related to a Defendant; or
 - b. purchased from some other entity

2. the purpose of the purchase:
 - a. purchased for a Settlement Class Member's own use and not for commercial resale;
 - b. purchased for straight resale;
 - c. purchased for use in providing repair services; or
 - d. purchased to build into another product.

Notwithstanding the foregoing, subject to further order of the Ontario Court, all claims will be assigned a minimum value of \$20. This includes end consumers who submit a claim for the purchase of a household refrigerator or freezer.

If there is not sufficient funds to pay eligible Settlement Class Members the percentages specified on page 9 of the distribution protocol, the settlement benefits payable to eligible Settlement Class Members shall be reduced pro-rata (i.e. proportionally) based on the value of the Settlement Class Member's claim as a proportion of the value of all valid claims.

Similarly, if there are surplus funds available after all eligible Settlement Class Members have been paid the percentages specified on page 9 of the distribution protocol, the settlement benefits payable to eligible Settlement Class Members shall be increased pro-rata (i.e. proportionally) based on the value of the Settlement Class Member's claim as a proportion of the value of all valid claims.

Payments to Quebec Settlement Class Members are subject to deductions payable to the Fonds d'aide aux recours collectifs, calculated in accordance with the governing regulations.

If the distribution would result in an unfair result to some or all settlement class members, further directions will be sought from the Ontario Court.

V. APPLYING FOR SETTLEMENT FUNDS

Information about how to apply for settlement funds under the distribution protocol will be available in a future notice and will be posted online at www.classaction.ca/cooling-compressors after the joint hearing. If you did not receive this notice by mail or email, please register online at www.classaction.ca/cooling-compressors or by telephone at 1-800-461-6166 ext 2446 to ensure that further notices will be sent to you directly, by mail or email.
